IN THE VINEYARDS

Walker Bay is synonymous with quality. Nudged by the Bot River lagoon with vistas of the Atlantic Ocean, the vineyards enjoy cool daytime temperatures that drop even more at night. A beneficial diurnal range aids in even ripening and complexity, ushering in the development of delicate fruit notes, fine tannin structure, and bright acidity. Tapping into the diversity of slopes, soil types, row direction, cultivars, and clones, the potential of these vineyards is set up to become a perfect snapshot of a vintage.

Slope: Southeast and southwest facing vineyards

Soil: Predominantly weathered shale and iron laterites, high calcium content

“ This is a blend of five grape varieties that went through a seven-stage selection process. Blending was done with one key idea in mind: to best reflect all the individual characters; to feel “complete” to all senses. The result is a typical Bordeaux-style wine, classic but with bright fruit and freshness as expected from cool climate winemaking.
